**Subject: Listener Invive Mild Silver Protein Testimony About Morgellons**

I got Morgellons in 2012 in my back and leg. I called them dragon worms, not knowing what I had. After suffering for over a year, trying everything to kill them, I heard you talk about the Invive Silver. I looked up Morgellons on the dosage chart, bought 5000 ppm. I took doses as prescribed. It took the whole bottle, and ... it totally cured me. We keep 5000, 2000, 500,and 50 p.p.m. now a days. Just wanted to share this testimony with you and say thank you. Glory to Jesus Christ! God bless you!

**Subject: Invive Silver Vs. Covid 19**

Hey brother, Scott. I appreciate your continuous work in this troubled time. I just wanted to share a testimony of Invive Silver vs. Covid-19.

We have a very wonderful friend who is an African pastor in our hometown. I was told by my pastor that four of their family members tested positive for Covid 19. This was on May 26th. I felt

that I was supposed to reach out to him. When he did he said that his wife and himself plus 2 of their 4 children had tested positive for Covid 19. I told him that I had a protocol that I believed would work for them if he would allow me to come over with it. He said that would be fine but was afraid that I would get sick. I told him that I was not worried one bit about it and knew that I was supposed to help them with this virus. I brought over 2 bottle of Invive 5000ppm and also a tub of 5000mg vitamin C that I bought at natural grocers. The brand was Solaray and it was calcium ascorbate but it was the only high dose C that I could find anywhere and figured it was better than nothing. So the protocol that I prescribed to them was 1 tablespoon of the 5000ppm silver per 30 lbs of body weight and also 4 teaspoons of the vitamin C each day per family member. He gladly said he would give it to his family per my instructions. I checked in with them daily to see how the administering was going. He said that his wife did get a fairly serious headache from something. I explained the Herxheimer reaction to him and he said that it made sense. By the 30th of May he said that most of the family member did not have a fever and by the following Monday, June 1st the entire family was up and about feeling strong and recovered. I told him that they should continue taking the protocol for a few days still and to save what they had left for future ailments. He wanted to pay for the natural supplements but because this man has blessed the African community and our church to such a great extent I told him that he was not able to give me money and that it was my pleasure plus it was also a confirmation that this protocol is a very strong option in the treatment of Covid 19.

Since then I have been approached by a couple of people and also a Pro Vaccine nurse from our church who asked, What did you give pastor Paul. Very interesting.

Here is a picture of my dear friend and I, when I preached at his church in West Fargo, ND a few years ago. Since then we have done some revival meetings down in Cedar Rapids, IA at another African church. It is a pleasure to serve a man who is so thankful to be in America and serves the Body of Christ with everything he has.

Thank you again, brother Scott. Love you, appreciate you, and I pray for you often that you will keep your wits(while doing this crazy study that you do by reporting on all this horrendous garbage) and keep your eyes on our one true hope, The Lord Jesus Christ.

**Corey**

. You don't have to make me totally anonymous. Just say your friend or brother from Fargo North Dakota or something like that. Whatever I'm not too worried about it. Take care

Subject: **Hey bro, I'd like another bottle of 5000ppm silver at same strength...I did the nebulizer last night and when I woke up so much flem came out of my lungs, it helped so much to get it up and out to avoid pneumonia. Dude it litterly cleared my lungs in one 5 min use last night. I mixed it at 500ppm and did 2 5 min sessions before bed spread it out. Another thing I notice is after this morning my shivers are gone... I love this silver and want to tell everyone I can about it. People have to have this product its better than any antibiotic I've taken, even intravenously. This silver if mixed and taken right can save ur life, no joke. U can treat the problem area directly!!! Praise the lord I am healed!!!**

Subject: Psoriasis

***You can add psoriasis to the list of Invive fixes. Had a little one on my face 3-4 years. It's almost completely gone. I didn't really think to use it before but now I know. So far I've found tick bites, psoriasis, and warts to be healed completely. Not to mention all the unknowns. We take it any time we start getting sick and never do get sick. No telling what that initial sickness feeling would have developed in to each time. Thanks as always!--Chris***

Subject: Re: Silver Special & Health Updates and Alerts: 6-20-18

**Dear Dr. Johnson, I purchased 6 of the Invive Silver (5000 ppm strength) about a year and a half ago from you. This past March, I came down with Shingles and shortly thereafter (a week or so later) also developed a large cyst on my upper middle back area. I ended up having to have the cyst lanced and the surgeon told me I would most likely have to have the cyst (sac) surgically removed in about 3 - 4 weeks which was based upon the size it had grown to. I immediately started using the Invive Silver (and used up almost a bottle of the 5000 ppm strength) and the cyst and Shingles totally healed up within about a week. The shingles was diagnosed in an early stage and was about the size of a 50 cent piece. I treated the cyst area and shingles with taking the Invive Silver internally as well as applying the Invive Silver directly to the infected areas. I also applied essential oils to the area. My doctor was amazed with how quickly everything cleared up, and so was I. I can't thank you enough for sharing the information on how healing the Invive Colloidal Silver is.**

**Thanks again for all of the information that you provide to your online followers. May our loving God continue to bless your work and ministry!--LLS**

Subject: **Colloidal silver**

**I just wanted to give a testimony about the silver. I burned my hand on the stove and it was really hurting me. I had ice on it but it was hard to do anything. I mixed a few drops of silver and left it on a bit last night. Today there is NO pain and it is healing well. It goes beyond the antibiotic properties. It was soothing and took the horrible pain away! I got the idea from using silvadine (sp?) cream on patients in nursing! Thank you,**

**PS: Thanks so much for the information! My burn is totally healed. I just used a few drops of the Mild Silver Protein with hand cream**

**Response: On Jun 4, 2017, at 10:29 PM, Scott Johnson <drjohnson@ix.netcom.com> wrote: Praise the Lord! Yes you are right about the silver salve: Silver is "Dulciment": That means silver is soothing to the tissues. This is evidenced by a silver known and used in every burn ward in the USA, namely Silver Sulphadiazine. Silver Sulphadiazine is used in prodigious amounts with severely burned patients whose prognosis would be death if it were not for the silver used for their infections. Conventional antibiotics (in the amounts necessary to stop the infections) are so toxic that they would kill the patients if used in the same manner. Vast quantities of silver are absorbed by thousands of burn patients via the skin and tissues, and are then carried by bloodstream of burn victims. This silver has proven to have no negative side effects on the other organs of the body. This fact has been proven by decades of usage in every burn ward in the USA.**

Subject: **2 things to share about Silver**

**Hi Dr. J. I wanted to let you know 2 things i used silver for this weekend that both worked instantly.**

*Against my better judgment i bought some new Doritos and ate half of the bag. It was buffalo ranch flavored and burned my mouth. You would think it was from some spicy pepper but I'm pretty sure they just added a strong acid to get that tangy taste. My mouth was cut up and sore for 2 days and i felt acute painful scratches all over. I brushed my teeth and tongue with a couple drops of the 5000 and the pain was gone in just half an hour after 2 days of it. Also, we went on a little hike and i got a tick on me. Several hours after removing it, it had swollen up real big and itched like crazy. And he bit down on that part of your back that you just cant reach no matter how you try. Lol. My wife put a Band-Aid with silver on it and the itching and swelling went away immediately. Dont really know how either of those are possible since neither were necessarily infected yet but i always try different things just to see how it works and in both cases it worked great. I was just trying to head off any infection or lyme disease but got instant relief in both cases. Just thought i would share, have a great week! Can't wait to dig in to your latest study today.*

To: Dr. Scott Johnson

*Dear Brother Scott: Thank you so much for your continued updates and the wealth of knowledge that you share. The Invive silver in and of itself has been a life saver for me and my family. No need for a doctor in over 6 years!*

*I recently caught a nasty sinus infection, probably from the daycare I run. I used the 1,100 orally and put drops in my nose. The major symptoms were gone in less than 48 hours. I have to say that without the silver I'd be sick a lot, which concerns me because as soon as I don't take it for a few days during the fall and winter I catch something. My immune system doesn't appear to be good with supplements only. I pray that the Invive does not get banned! We have went through more silver this year than the last 5 put together.*

Dr. Johnson's Reply--Susan: Great to hear how the silver has helped you! With what you are describing (if it were me) I would highly encourage you (at bare minimum) to add in some whole food vitamin C (like [Innate Response C Complete Powder - 81 gm](#) or [Innate Response Vitamin C-400- 180 count](#) ) as this is what I do personally to keep my primary immune system strong, whereas the silver acts as a secondary immune system in the body, but does little to actually fuel your primary immune system like a whole food C would do. This would most likely also save you a ton of money on the silver, which is pricey stuff. These whole food vitamin C products are professional line products I carry.

Now with a sinus infection the best way to directly go after this is to get any nasal spray atomizer bottle (like this one: <http://sparknaturals.com/index.php/accessories/1oz-blue-glass-nasal-sprayer.html> ) and add 500ppm silver to the bottle. Now to make the 500ppm strength just add 10 parts distilled water to one part 5000ppm. This will be the strength you use in a nasal spray bottle. One drop of eucalyptus oil to this 500ppm solution is also very good for nasal use. When you use the 500ppm in the nasal spray bottle make sure you tip your head back and spray 3-5 times per nasal passage. You can do this several times per day. If you ahd a active sinus infection you would (ideally) also want to take 1/4 tsp. of the 5000ppm held under the tongue 3 times a day until you are doing better.

Also this looks like another amazing product for respiratory health:

<http://sparknaturals.com/index.php/espa/stx-respire.html>

Thank you and God bless you!--Scott

-----Original Message-----

**From: On Behalf Of Mary Ann Farley**

**Sent: Wednesday, November 18, 2015 1:58 AM**

I spoke with a woman in a forum on The Cat Site, who said she cured her cat's gingivitis using Invive 5000. She put a few drops on a q-tip, and swiped his gums with it for two weeks, and apparently it never came back. Gingivitis in young cats (very abnormal) is serious as it can morph into a much more painful autoimmune disease caused stomatitis. As my cat has gingivitis and is only two and a half years old, I'm hoping that this will work for her, too, as it could potentially spare her, and me, and world of hurt down the line. It was great that this woman was able to recommend a specific brand and strength that actually worked for her. Fingers are crossed!

---

**Sent: January 30, 2017**

Dr. Johnson: Would you please send me more *Invive* Col. Silver 5000ppm. I believe God has used the Silver to boost my immune system a lot. No cold or flu for this winter...I believe the silver has allowed me to live my highest potential. I take other natural products as well. I am thankful for the silver and have told others about it. I have to thank God for His provision.

Sincerely, Lee Z.

**Subject: Re: Quick question! PLEASE HELP!**

Thank you so much for your quick responses I really appreciate you and all you do! Just taking the silver 1 teaspoon for seven days has totally got my bowels back to normal! I honestly am in disbelief, I have been dealing with this for like almost 3 years! I really think I had Giardia that just kind of lingered and had long-term effects! But honestly since I've taken this I've been totally normal! It's just crazy! But in the best way possible so thank you so much!!
